ABOUT US

Join us and contribute to an exciting and successful future for the industry.

Young Constructors is a forum for young professionals who work in the construction industry. It is also an important part of the Worshipful Company of Constructors - a City livery company that is focused on building the success of the construction industry.

Young people are the life blood of the industry and so the Young Constructors is keen to support and encourage young people as leaders to secure and build the ideas and skills that the industry needs to succeed. Once joined, professionals will be given the opportunity to improve themselves, career as well as progress through the Company to Master level.

So, if you want to be part of something bigger, join us and contribute to an exciting and successful future for the industry.

WHAT WE OFFER

Social and networking events

We have a wide range of informal and formal events throughout the year most of which give you access to exclusive spaces within the City of London with some amazing construction professionals.

Scholarships and awards

Every year, these are offered in conjunction with the high-profile organisations such as the CIOB, the BRE Trust and the University College of Estate Management. These bursaries support students, graduates, academics and practitioners, and promote the construction leaders of the future.

Education

The wealth of industry experience and knowledge of our members allow us to hold our own CPD events and highly informative seminars. We also hold special interest groups for key professional business, philanthropic or educational purposes.

Committee Participation

Our Youth Members' Committee works closely with the Diversity and Inclusion Committee to tackle current issues facing the industry so that we all can have the opportunity to influence and shape construction.
